Safety Policy

We at the Mubarak Group emphasize safety with top priority. Our staffs are strictly advised to follow safety requirements based on work nature and site conditions. Safety induction class is being awarded to all staff at the time of joining with us & prior to mobilization of each job. Weekly safety reviews are being followed up through safety supervisor & strict action is being taken against personals who deny to keep up with our safety standards.

General PPE Requirements Followed:

Apart from the general requirements our team strictly abide towards the use of safety harness, fire blankets, extinguishers, etc. based on the work nature & client/ main contractor safety supervisor recommendations. They are also well informed on the necessity of scrap & rubbish removal upon completion of work on daily basis so as to keep the work area clean & organized.

Safety class for handling tools & safety inspection on its condition is being maintained. Preventive maintenance system is being adapted for tools.

Medical first aid kits have been provided with each supervisors & they have been educated to perform basic first aid procedures in case of an accident/ health issues. Company has also added up insurance policies for its employees to overcome any mishappenings.

MetLife shall not be deemed to provide coverage and shall not be liable to pay any claim or provide any benefit to the extent that the provision of such benefit would expose the Company to any sanction. MetLife reserves the right to terminate or amend any certificate if the benefits outlined above exceed MetLife's guidelines or if the insured is deemed by MetLife as not being eligible for insurance coverage.

This certificate does not itself represent a legally binding contract, but rather serves simply as a notice of coverage. All dates, benefits, limitations and exclusions are as described in the Master Policy in force with the Policyholder.

This is a computer generated certificate, therefore it does not require a signature.
