VISION

**Together, we will turn
vision into reality.**

About Us

Next Vision specializes in supplying building materials and formworks, as well as providing project management services and design development. By tailoring our approach to your specific needs, we collaborate closely to turn your visions into reality.

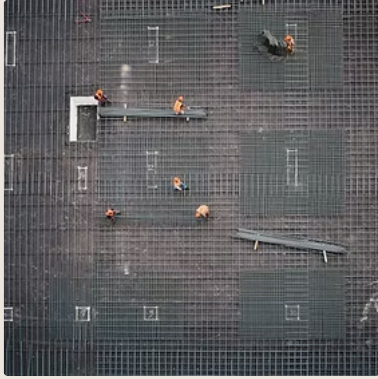

Our extensive expertise and unwavering commitment to excellence ensure that your construction projects are built to last. We pride ourselves on our agile way of working and our openness to innovation, allowing us to secure the best value and deliver optimal solutions for our clients.

We specialize in the Middle-east region, but our global expertise is readily available to anyone who needs it, wherever they are based.

Together, let's turn today's visions into tomorrow's realities, and build lasting partnerships and a brighter future for all!

Our Services

At Next Vision, we offer a comprehensive range of services designed to support your construction projects from conception to completion. Our expertise spans across vital areas, ensuring every phase of your project is handled with precision and excellence.

Supply of Materials

Our technical team helps to precisely define project requirements, select the most suitable materials and quantities, and provide expert guidance on planning, design, and safety considerations. In addition, we ensure timely delivery of materials through our trusted partner suppliers, minimizing risks and preventing delays in project execution.

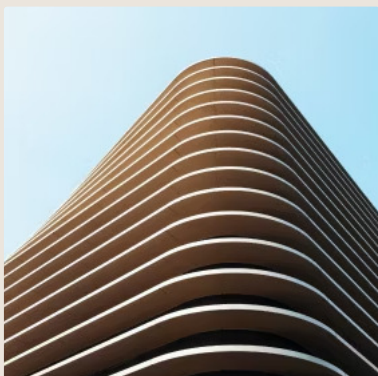

On-Site Assistance

Experienced Technicians are available to offer hands-on guidance for the safe and efficient use of our equipment, while also assisting with design adjustments needed to accommodate site-specific conditions.

Project Management

Our Project Management expertise ensures reliable oversight of time, cost, quality, and sustainability aspects of your projects. Our experts will guide you through the project lifecycle, assist in assembling the consultant team and ensure a smooth completion.

Design Development

We have in-house design expertise and offer a full design development scope for our clients. With diverse experience across multiple property sectors, we are well-equipped to deliver designs that meet our clients' expectations.

Structural Reinforcement Engineering and Design

Our experienced team of structural engineers and designers offer comprehensive services to support your construction projects. We specialize in creating detailed reinforcement drawings for steel, concrete, and masonry structures using our in-house and outsourcing's team of skilled professional designers.

Scaffolding Solutions

We provide comprehensive scaffolding systems and expert support for safe, efficient, and compliant access solutions on all construction projects. A variety of rental plans tailored to your project duration and specific requirements.

Formworks Solutions

Our formwork systems designed to meet the demands of modern concrete construction projects. Our solutions ensure structural integrity, efficiency, and safety at every stage. Choose from flexible options for renting or purchasing formwork systems, perfectly catering to your project's budget and duration requirements.

Industry-Leading Expertise

1

Extensive Experience

Our team has accumulated decades of experience in the construction industry, enabling us to provide expert guidance and tailored solutions.

2

Continuous Learning

We actively invest in the professional development of our staff, ensuring they stay up-to-date with the latest industry trends and best practices.

3

Collaborative Approach

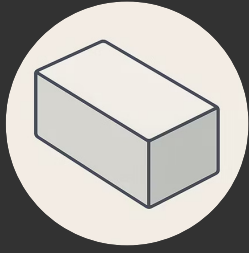

We work closely with our clients, architects, and contractors to understand their unique needs and deliver customized, high-performance building materials.

4

Unmatched Quality Assurance

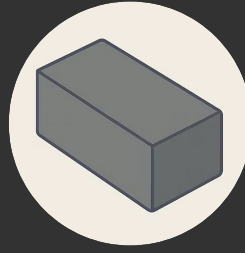

At Next Vision, we have implemented rigorous quality assurance processes to ensure that every product we offer meets the highest standards of excellence. From the initial selection of materials to the final inspection, we prioritize quality at every step of the way.

Our Products

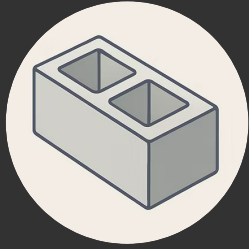

AAC Blocks

Lightweight, durable, and energy-efficient

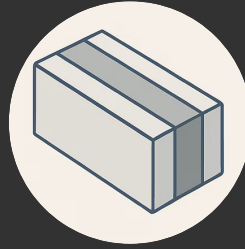

Solid Blocks

Dense, heavy-duty masonry units

Hollow Blocks

Lightweight concrete or cement-based units

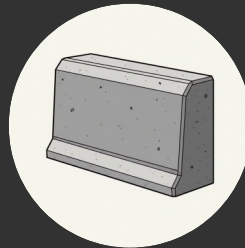

Thermal Blocks

Energy-efficient units with excellent heat transfer

Interlock

Interlocking concrete pavers for durable and attractive surfaces

Kerbstone

Precast concrete edging for roads, walkways, and landscaping

Masonry Mortar

Binding material made from cement, lime and aggregates

AAC Mortar

Specialized mortar for optimal bonding and thermal performance

Plaster

Used to create smooth, durable surfaces on walls

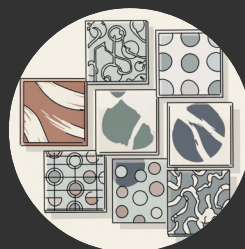

Screed

Applied over concrete subfloor to create smooth surface

Cement

Fine powder acting as binding material

Ceramic Tiles

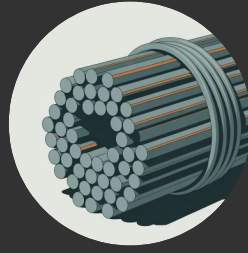

Ceramic tiles for flooring, walls, and decorative applications

Our Products

Precast Concrete

Pre-manufactured concrete elements for efficient construction

Steel Rebar

High-strength reinforcement bars for concrete structures

Plywood

Versatile engineered wood panels for construction applications

White Wood

Quality timber for construction applications

Scaffolding

Temporary structures providing safe access for construction work

Formworks

Temporary structures for shaping concrete during construction

Tailored Solutions for Your Success

1

Needs Assessment

We start by thoroughly understanding your unique project requirements and construction goals.

2

Product Selection

Our experts recommend the most suitable building materials to optimize performance and efficiency.

3

Competitive Pricing

By leveraging our strong supplier relationships, we offer competitive pricing without compromising on quality, helping you maximize the value of your investment.

4

Seamless Delivery

We ensure timely and reliable delivery, keeping your project on schedule and your business running smoothly.

5

Commitment to Satisfaction

Our dedication to customer satisfaction is unwavering, and we work tirelessly to exceed your expectations and build lasting partnerships.

Elevate Your Next Project with Next Vision

At Next Vision, we believe that high-quality building materials are the foundation of every successful project. That's why we offer an unparalleled product selection, industry-leading expertise, and tailored solutions for your success. With our comprehensive range of building materials and exceptional customer service, we're the trusted partner you need to elevate your next project to the next level.

Unparalleled Product Selection

Choose from our comprehensive range of high-quality building materials to meet your project needs.

Exceptional Customer Service

Receive expert guidance and personalized support to ensure your complete satisfaction.

Industry-Leading Expertise

Benefit from decades of experience as we deliver tailored solutions for optimal performance.
