Electro-Mechanical Solution Providers

PROVIDE SUPPORT IN DESIGN, SOURCE AND SPECIALIZED SOLUTIONS

ELECTRICAL - MECHANICAL - INSTRUMENTATION (OIL & GAS /INDUSTRIAL)

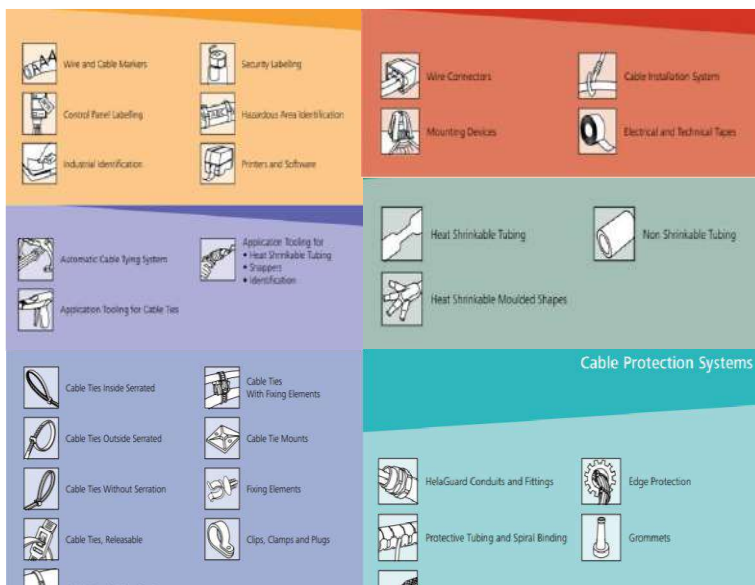

Our unique ability is to provide customers with all solutions from one source: electrical, utility, instrumentation, automation, machinery, hydraulics, pneumatics, flow control, insulation, Oil & gas, communications, security, mechanical, hardware, tools, metals, custom fabrication & many other allied products from a single source – is unparalleled in the GCC region, and this is what differentiates NYSA from other suppliers. We have a distinctive edge in supplying all that a project needs, right from Bulk Material requirements and critical site supplies, to project shortages, warranty snags and top-ups

OUR MISSION

To position our presence in close proximity to our customers and provide superior quality product line at a competitive price by continuously investing in our human resources and Innovative Technology

PRODUCTS:

HellermannTyton GmbH-Professional Cable Management

Relicon by - HellermannTyton GmbH

HellermannTyton GmbH

1. Cable Ties and Fixing
2. Insulation.
3. Cable Protection System
4. Electrical Installation.
5. Identification Systems.
6. Application Tooling

NYSA is distribution partner of GIFAS Electric Switzerland, the UAE market leader for underfloor power distributors for the landscape area. Thanks to GIFAS CAMPETTO underfloor power distributors temporary electrical installations are no longer needed. Typical applications are feeding of food trucks, events, concerts etc. Contact us for tailor-made solutions for your specific project as well as for our reference list of realized projects in UAE and the Middle East.

Product Range:

- Underfloor Distribution Boards
- Bollard System
- Floor Socket Outlets
- Mobile Distribution Boards
- Cable Reels
- Explosion Proof Products

Hazardous Area Product Line like Junction Box, Light Fixtures, Isolators, Plugs and Sockets and Distribution Boards:

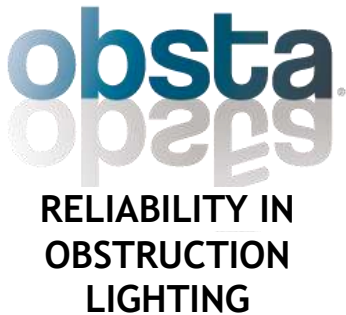

Power and Control Cables: For complete range of Copper & Aluminum Power Cables - High Voltage [Up to 132kv], Medium Voltage [3.3kv to 33kv] & Low Voltage Cables [0.6 to 1.1kv]; Control Cables [Paired, shielded]; Flexible Cables; Building Wires; Panel Wires; Bare Copper Conductors; Overhead Line Aluminum Conductors

EARTHING & LIGHTNING PROTECTION System: Copper Earth Rods; DC Tape clips; Earth Clamps, Split Bolt Connectors; Cable Clips; Earth Boss; Insulators; Disconnecting Links; Concrete Inspection Pits; Bi-metallic Plates & Washers; Copper 'C' Crimps; Copper Lattice Mats / Plates etc.

***FiBOX* (Made in Finland) – Poly Carbonate Junction Box and Enclosures for variety of application**

- Material of Construction – Polycarbonate
- Safety class IP67 as per EN 60539
- Impact Resistance IK08 as per EN62262
- Flame-retardant shell mold according to UL94 V0
- UV-resistant as per UL 508
- Available with Solid Lid & Transparent Lid
- Temperature -40°C to 120°C
- Halogen Free as DIN / VDE 0472, Part 815
- Electrical Insulation – Totally insulated
- Glow Wire Test As per IEC695-2-1@950°C

**RELIABILITY IN
OBSTRUCTION
LIGHTING**

OBSTA-France (Air Craft Warning Lights) - (ICAO & FAA APPROVED)

Air Craft Warning Lights: Obstruction Lights for High Rise Buildings, Chimneys, Tower duly certified by ICAO and FAA and in compliance with Local Civil aviation regulations.

CITEL

CITEL-France SURGE PROTECTION DEVICES

Surge Protection Devices for AC network/LED/PV application/Data Center/Communication

Electrical Trading LLC

A New Beginning....

Company Introduction

Nysa Electrical Trading LLC (NETL) is a company registered under Dubai Chamber of commerce in UAE for rendering the Electrical solutions mainly to the UAE market along with GCC, North Africa & CIS markets.

Nysa Electrical Trading LLC is run by highly experienced professionals, with experience of over two decades in the Electrical field thus making our company not only a mere trading unit but also provides highly engineered technical solutions to its esteemed clients. Thriving in its intense desire and passion towards providing cost optimized solutions to cater the quality need as well as financial constraints from the market.

Our unique ability to provide customers with all solutions from one source: electrical, utility, instrumentation, automation, machinery, hydraulics, pneumatics, flow control, insulation, Oil & gas, communications, security, mechanical, hardware, tools, metals, custom fabrication & many other allied products from a single source – is unparalleled in the GCC region, and this is what differentiates NETL from other suppliers. We have a distinctive edge in supplying all that a project needs, right from Bulk Material requirements and critical site supplies, to project shortages, warranty snags and top-ups.

NETL has joined hands with the below brands from Europe, USA and Asia Pacific.

Let's Turn the Page and find out what Nysa have in their basket to offer you...

HellermannTyton GmbH

PROFESSIONAL CABLE MANAGEMENT SYSTEM

- Cable Ties and Fixing
- Insulation
- Cable Protection System
- Identification System
- Electrical Installation
- Application Tooling

Relicon by HellermannTyton GmbH

- Timesaving due to fast curing time
 - Multiple use possible, mixing ratio 1:1
 - Stable up to 200 °C
 - Dielectric Strength >20KV
 - Thermal Conductivity 6 times more than Air.
 - Excellent Heat Dissipation for Driver Boxes.
 - IP68
- No mixing, easy to install
 - UV, ageing and weather resistant
 - IPX8 tested
 - Tested according to EN 50393
 - Unlimited shelf life
 - With connector, ready for assemble
 -
 - Safety class IP68
 - Flame-retardant shell molds according to UL94

ENCLOSURE SOLUTION FOR ALL APPLICATIONS

- Material of Construction – Polycarbonate
- Safety class IP67 as per EN 60539
- Impact Resistance IK08 as per EN62262
- Flame-retardant shell mold according to UL94 V0
- UV-resistant as per UL 508
- Available with Solid Lid & Transparent Lid
- Temperature -40°C to 120°C
- Halogen Free as DIN / VDE 0472, Part 815
- Electrical Insulation – Totally insulated
- Glow Wire Test As per IEC695-2-1 @950°C

M-Technic GmbH

- Equipped with patented cable outlet protection “PROtector”
- The cable is automatically protected in the cable outlet area. Highest personnel and system protection
- Garant PROtector upto 12.5T Load Class as per EN124
- Plaza Protector upto 40T Load Class as per EN124.
- Fame - Complete Stainless Steel
- Closed During Operation
- Lid can be filled as per ambience.
- No maintenance-prone spindle drives
- long service life even in harsh environments
- Protection Class IP68 (flood-proof) with closed cover.
- Automatic opening via Maintenance Free Stainless Steel Gas Pressure Dampers.

Lucy-Zodion

- Completely flush top surface when not in use.
- Recess in cover to receive matching floor infill.
- Electrical Components sealed to IP67/68
- Automatic Power Disconnection when unit is folded away.
- Stainless Steel Construction.
- Long-life Stainless-Steel Wedge Lock & Hinges.
- All Components are fully earth bonded.
- 110/230/400AC Variants are available.

Eztech Solar Cleaning System

- A fully Autonomous & Automatic Solution to manual panel cloning.
- Customized to fit size & layout of the Installation.
- Operated By Mobile APP.
- Ideal for rooftop installations and commercial setups, pole mounted street lights & large Solar Plants.
- Light Weight, Robust, Simple & Anti Corrosion Aluminum System
- Waterless System.
- No Separate Guide rail needed.
- Soft Brush bristles clean efficiently.
- Fully Designed & Developed in UAE.

We have a very close collaborated partnership with many European Companies for providing end to end solution for variety of Electromechanical Engineering Projects. The solutions are provided from design to execution stage. With an experienced team of Engineers, we are capable of undertaking design, execution and supervision of MEP projects.

OTHER AREAS OF OUR EXPERTISE

- **AIR CRAFT WARNING LIGHTS** – NETL provided Engineering/ Product support to Consulting Engineers and MEP contractors for designing and providing Product Engineering services with High end Technology for High Rise Buildings in line with ICAO and FAA standards.
- **HAZARDOUS AREA PRODUCT LINE** – NETL caters to variety of product line for Hazardous area application which are duly certified by ATEX and can be customized as per end user application.
- **SURGE PROTECTION DEVICES**- Surge Protection Devices for AC network/LED/PV application/Data Center /Communication.: Made in Europe
- **LV SWITCH BOARDS** – Customized designed to Client application and meeting all engineering standards.
- **EARTHING & LIGHTNING PROTECTION** - Copper Earth Rods; DC Tape clips; Earth Clamps, Split Bolt Connectors; Cable Clips; Earth Boss; Insulators; Disconnecting Links; Concrete Inspection Pits; Bi-metallic Plates & Washers; Copper 'C' Crimps; Copper Lattice Mats / Plates etc.

OUR MISSION

To position our presence in close proximity to our Customers and provide superior quality product line at a competitive price by continuously investing in our human resources and Innovative Technology.
