

PANACOR TECHNOLOGIES LLC

Innovate - Integrate - Inspire

COMPANY PROFILE

ABOUT US

Panacor is a specialized System Integration company providing complete turnkey ICT solutions including Security, Storage solutions, Audio-Visual, Digital signage and IT solutions. Panacor has extensive experience in the retail, hospitality, entertainment, healthcare, financial services, transportation, education and government sectors across the Middle East. We provide complete turnkey solutions from Consulting, Design and Engineering to Installation and Maintenance. Whether it is financial readiness for taking on large projects, the technical expertise to tailor-make innovative in-house solutions or the commitment needed to surpass every standard of service the market has seen, we are focused on being at the top.

MISSION STATEMENT:

- To be the name best-known in the System Integration business for technical ability, service excellence, innovation and the willingness to take on impossible challenges.
- To be an organization that employs the best talent and inspires each person to give their best.
- To be the partner of choice for the best brands and to nurture these alliances.
- To be responsive to the societies we live in and serve our communities.
- To be the biggest player in the Middle East & Africa region.

BEST IN CLASS TEAM

Panacor Technologies LLC is proud to have an Excellent team of professionals with extensive experience across various technical disciplines. Our team's expertise spans the design, installation, and evaluation of a wide range of systems, supported by a strong foundation in both technical and commercial aspects.

At Panacor, we recognize that our people are our greatest asset. As such, we invest heavily in ongoing training and development. Our technical staff, engineers, and programmers are all trained and certified by leading industry suppliers, ensuring they are well-equipped to meet the evolving needs of our clients.

- Smart Tablets for clinical use
- ERP for back office like SAP ORACLE MICROSOFT EPICORE
- MOBILE APPS for healthcare
- Queue Management Systems
- Nurse Call Systems
- Bedside Health Infotainment Solutions

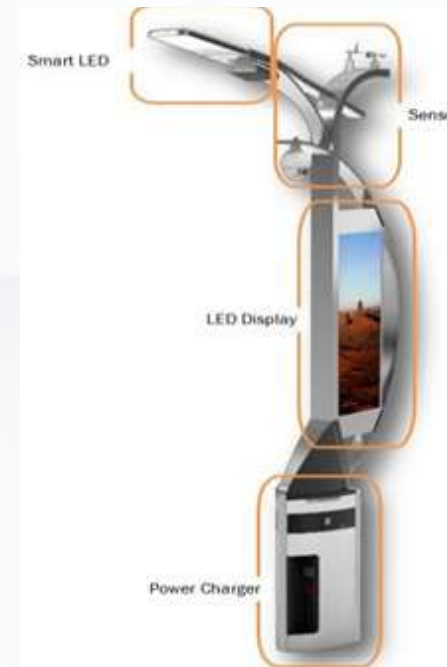

PRODUCTS AND SERVICES

SMART CITIES AND AI

IOT BUILDS A BETTER-CONNECTED WORLD:

The Internet of Things(IoT) is forging the digital economic era. IoT exists in a massive, sophisticated ecosystem that requires joint investment and collaboration between ICT solution providers, enterprises, research institutes, and governments.

SMART STREET LIGHT SYSTEMS

New Smart Street Light technology has been designed to represent the culmination of several sophisticated technologies in a single “pole” unit.

SMART HOME SYSTEMS

Home monitoring systems to assure that kids got home just fine, light sockets that can be switched on and off by an iPhone, thermostats that will make the den all comfy before getting home, and even refrigerators that tell you when you are out of milk and eggs. These “smart” homes and devices, with infinite connections to the outside world, offer unprecedented access to information and a certain amount of ease.
