OVERVIEW

PWGM is specialized in Aluminium, uPVC & Glass Work Contractor & Automatic Door, Shutters, Garage Door Operator Systems. Our prime business and specialty is the design, engineering, manufacturing, and installation of all types of facade systems. Our services span across all types of products from advanced to traditional curtain wall systems as well as cladding systems. We make the most of local and international systems thereby offering the most up-to-date technologies and meeting global standards.

DIVISIONS

PUAW has a dedicated team of experienced engineers and technicians capable of carrying out all types of projects by employing industry standards in Design, Engineering, Fabrication, and Installation.

FABRICATION & INSTALLATION

Our products have undergone complying all International Standards PWGM uses highly experienced and qualified installation and service crews together with carefully monitored quality control systems to ensure the highest level of quality, time and cost reliability. Our main attention is to focus on maximizing off-site fabrication and on-site successful installations.

PROJECT MANAGEMENT

The use of sophisticated, modern planning and management tools together with the required organization and resources gives PWGM the full control of quality, cost and program to ensure the complete picture necessary for successful project management. This knowledge enables PUAW to give a confident response to the individual needs of each project: quickly and accurately responding to changes wherever they occur. The total quality approach is the most important factor in the company's mission. Keeping up to changing market needs by eliminating compromises in process and product quality is the benchmarking factor in the success of the company. And we offer for each project, project managers, project coordinator, site superintendent, foreman and Estimators.

Well-qualified project managers, by carefully following proven procedures and by giving detailed attention to the control of all of the company's operations, the success of the projects is assured. PWGM is uniquely positioned with unrivalled expertise and knowledge to support its customer requirements.
