

**CIVIL DEFENSE APPROVED COMPANY**

**Scope of Services:**

- Front End Engineering, Design - FEED
- Consultation Services
- Installation of Central Gas Systems
- Annual Maintenance Contract (AMC)
- Meter Reading and Billing
- Gas Supply Solutions
- Operation and Maintenance Services •
- 24/7 Emergency Response Call Center
- Gas System Training Programs
- Strategies for Cost Reduction
- Kitchen Suppression System
- Fire Fighting
- Fire Alarm System

## **ABOUT US:**

Phoenix Gas & Fire is a leading name in the industry, dedicated to providing expert solutions in gas and fire safety. With a deep commitment to excellence, we offer a comprehensive range of services, from designing and installing cutting-edge gas systems to fire safety solutions that protect lives and assets. Our team of professionals is highly skilled and experienced, ensuring that our clients receive the highest quality service. We take pride in our ability to optimize systems for efficiency and cost-effectiveness, all while maintaining the highest safety standards. Phoenix Gas & Fire is your trusted partner in ensuring the safety, reliability, and efficiency of your gas and fire systems.

## **VISION**

"At Phoenix Gas & Fire, our vision is to be a pioneer in creating safer and more efficient gas and fire solutions, setting new industry standards for excellence."

## **MISSION**

"Our mission at Phoenix Gas & Fire is to safeguard lives and assets by delivering top-tier gas and fire safety services, driven by innovation, reliability, and unwavering commitment to our clients' security."

## **Contact Us**

📍 Office No. 03, Al Muteena,  
P.O. Box No : 12331, Dubai - UAE

## **FRONT END ENGINEERING DESIGN**

Our FEED study prioritizes future gas system feasibility, aligning with project requirements to prevent EPC phase changes. It optimizes gas system selection, accommodating demand fluctuations while adhering to local regulations and minimizing client investments. FEED forms the project's foundation, guiding bidding and ensuring controlled project execution.

## **CENTRAL GAS SYSTEM INSTALLATION**

We execute gas systems, including NG, SNG, and LPG installations, for above-ground projects, encompassing:

- a. Industrial Projects
- b. Hotels & Resorts
- c. Recreational Centers/Malls
- d. Schools
- e. Restaurants
- f. Villas
- g. High Rise Residential Buildings/Towers
- h. Labor Camps
- i. Hospitals & Medical Facilities
- j. Cylinder Manifold Systems
- k. Fully Functional Gas Leak Detection Systems

## **GAS SUPPLY**

Phoenix Gas and Fire sets the industry standard with unwavering commitment to excellence. We provide top-tier services, ensuring reliable and uninterrupted gas supply, prioritizing safety, efficiency, and customer satisfaction. Choose us for an exceptional gas supply experience that defines excellence.

## **CONSULTANCY**

We lead gas system design, ensuring compliance, efficiency, and cost-effectiveness. Value Engineering maintains sustainability and meets client needs.

## **ANNUAL MAINTENANCE CONTRACT (AMC)**

Phoenix Gas Co.'s Annual Maintenance Contract ensures top-tier gas system functionality. It covers precise inspections, preventive maintenance, and swift repairs. With calibrated meter checks, pipeline assessments, and emergency response plans, the AMC guarantees compliance and safety. Their adept team tailors solutions for each client, ensuring uninterrupted gas supply while upholding industry standards. It's a symbol of reliability and commitment to customer satisfaction.

## **METER READING AND BILLING**

In order to offer optimal service and provide a comfortable experience for both building managers and tenants, our Meter Reading and Billing services include regular utility bills delivered to registered contact address.

## **OPERATION & MAINTENANCE**

Recognizing the pivotal role of Operation & Maintenance in ensuring gas system sustainability and safety, we provide round-the-clock, expert operation and maintenance services through a professional team. System longevity is enhanced through periodic fine-tuning, optimizing its performance.

## **24 X 7 EMERGENCY CALL RESPONSE CENTRE**

In times of emergencies, our dedicated 24/7 Emergency Call Response Center ensures an immediate response to customers. Our team swiftly addresses the situation, prioritizing client safety and system functionality. We promptly notify the responsible parties for rapid corrective actions.

## **COST SAVING STRATEGIES**

Ultimately, customer satisfaction hinges on cost considerations. We propose feasible gas systems, emphasize gas quality for long-term use, and optimize existing systems for future cost-efficiency. We ensure system viability, aligning with safety regulations without compromising financial needs.

## **FIRE FIGHTING SERVICES**

Our Fire Fighting Services are paramount in ensuring safety. We provide comprehensive fire risk assessments, ensuring potential hazards are identified. Our installation and maintenance of fire extinguishers guarantees their readiness during emergencies. We conduct thorough fire safety training, empowering individuals and organizations with essential knowledge. Our state-of-the-art fire alarm and suppression systems are designed for early detection and swift control of fires. We are dedicated to pro-active prevention and rapid response to safeguard lives and assets. Your safety is our priority.

## **GAS SYSTEM TRAINING**

Mandatory training for building occupants and facility management is vital for gas system safety. Quick response in emergencies reduces potential hazards. We provide comprehensive system briefings, educating customers on safe practices during system interruptions or leaks, promoting responsible system use.

## **KITCHEN SUPPRESSION SYSTEM**

Phoenix Gas & Fire Company excels in kitchen suppression services, ensuring commercial kitchens are equipped with top-notch fire protection systems. They install, inspect, and maintain tailored suppression systems that swiftly detect and extinguish fires, prioritizing safety and minimizing risks for kitchen staff and property. With expert technicians following industry standards, Phoenix Gas & Fire Company is the trusted choice for businesses seeking reliable kitchen fire protection.

## **FIRE ALARM SYSTEM**

A Fire Alarm System is the cornerstone of fire safety, swiftly detecting smoke, heat, and fire-related risks to provide early warnings. Whether in homes, offices, or industrial settings, our advanced systems ensure rapid responses for swift evacuation and action. With cutting-edge technology and a commitment to reliability, our Fire Alarm Systems offer peace of mind, serving as a trusted ally in fire prevention and response.
