red sand **THE GOLDEN HANDS BEHIND US**

RED SAND Group of Companies was founded in 1978 by our esteemed father, SULAIMAN V V ABDULLA, in Liwa, initially as a grocery and restaurant business. With the unwavering support of our dedicated team, we have grown alongside the prosperity of the Al Dhafrah region in Abu Dhabi. We are deeply grateful to the visionary leadership of H.H. SHEIKH ZAYED, the rulers, and the people of the UAE for their contributions to the country's growth.

Over the past five decades, through relentless hard work and commitment, we have expanded our business across multiple sectors and successfully undertaken numerous projects.

Beginning in the food retail sector, we gradually diversified into agriculture, building materials, hospitality, entertainment, event management, farm automation, office automation, filmmaking, and, more recently, artificial intelligence.

At RED SAND, we are driven by the philosophy of delivering modern, high-quality products that align with our customers' preferences, ensuring that our business continues to thrive and meet the evolving needs of the market.

- This collage displays a wide range of products for water supply systems. On the left, there are two large white plastic storage tanks, one with a 'V-Tank' logo. Next to them is a white electric water heater. Above the heater is a blue three-stage water filter. In the center, there's a black textured mat and three cans of 'FABRILO' cleaning solution in blue, green, and orange. To the right, there's a collection of various pipes (black and green), elbows, tees, and other fittings. Also included are several brass valves and faucets, a green pipe cutter, and a green pipe wrench.
