

Reliance Water Technologies LLC

Protecting Your water Systems with Advanced Water Treatment Solutions.

About Us

Reliance Water Technologies is a trusted provider of water treatment solutions, offering advanced equipment and high-quality chemical supplies for complete water management. We focus on delivering clean, safe, and efficient water systems that meet industry standards.

We operate in line with ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 standards, ensuring quality, environmental responsibility, and workplace safety.

We provide turnkey services for residential, commercial, and industrial projects, including design, installation, commissioning, and maintenance. Our team ensures reliable performance and long-term results across all water systems.

WHY CHOOSE US?

- Complete Water Solutions
- End-to-end Services
- Quality & Compliance
- Experienced Team
- Reliable Performance

VISION

Our aim to become a leading and trusted provider of water treatment solutions, recognized for delivering sustainable, innovative, and high-quality services across water treatment, chemical supplies, chemical flushing and Disinfection jobs. We aim to support efficient water management while contributing to environmental protection and long-term resource sustainability.

MISSION

To provide reliable and high-quality water treatment, chemical flushing, and disinfection services using effective and sustainable solutions. We are committed to efficient water management, environmental protection, and meeting customer needs with integrity.

We follow international standards including ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 to ensure quality, safety, and environmental responsibility in all our work.

We specializes in environmentally friendly water treatment solutions, offering a wide range of equipment and chemical supplies.

Protecting Your System with Advanced water Treatment

CORE SERVICES

All our services are carried out in strict accordance with international standards for quality, environmental management, and occupational health and safety. We are committed to delivering excellence through our compliance with ISO 9001:2015 (Quality Management System), ISO 14001:2015 (Environmental Management System), and ISO 45001:2018 (Occupational Health & Safety Management System), ensuring reliability, sustainability, and safety in every project we undertake.

- ✓ Water Treatment
- ✓ Descaling and Chemical Flushing
- ✓ Chemical Supplies
- ✓ Supply, Installation and Maintenance
- ✓ Cleaning and Disinfection
- ✓ Pickling and Passivation
- ✓ chlorination / Disinfection

Water is vital to every living system. Our commitment is to keep it clean, safe, and reliable.

OTHER SERVICES

- ✓ Indoor Air Quality Monitoring
- ✓ Legionella Risk Assessment
- ✓ Air and Water Balancing
- ✓ RO plant Installation and Maintenance
- ✓ Swimming Pool Repair works
- ✓ Heat Cool unit installation and Maintenance
- ✓ Water Softeners chemical flushing
- ✓ Marine, Oil and gas fiels chemical Flushing
- ✓ Cooling Towers Cleaning, Descaling and Disinfection

PRECISION,
PERFORMANCE.
TRUSTED WATER
TREATMENT
SOLUTIONS

WATER TREATMENT

- ✔ Domestic Water Treatment
- ✔ Chilled Water Treatment
- ✔ Swimming Pool Water Treatment
- ✔ Boiler Water Treatment
- ✔ Legionella Risk Assessment
- ✔ RO Water Treatment
- ✔ Sewage Water Treatment

ONE PARTNER
FOR ALL WATER
SYSTEMS

DESCALING AND CHEMICAL FLUSHING

- ✓ Pipe Lines Chemical Flushing
- ✓ Chiller/Condenser/Evaporator Descaling
- ✓ Pipe Line Pre-commission chemical Flushing
- ✓ Marine, Oil and Gas plants chemical Flushing
- ✓ Heat Exchangers Chemical Flushing
- ✓ Boilers Chemical Flushing
- ✓ Pickling and Passivation
- ✓ Potable water pipe lines Descaling
- ✓ Hot Oil Flushing

DESCALE YOUR
SYSTEM FOR
SUSTAINABILITY

CHEMICAL SUPPLIES

- ✔ Water Treatment Chemicals
- ✔ Descaling Chemicals
- ✔ Pickling and Passivation Chemicals
- ✔ Marine, Oil and Gas field Chemicals
- ✔ RO plant chemicals
- ✔ Polymers
- ✔ Pipeline cleaning Chemicals
- ✔ Biocides
- ✔ Corrosion Inhibitors
- ✔ Commodity Chemicals

SUPPLY, INSTALLATION AND MAINTENANCE

- ✓ Water Filtration systems
- ✓ Multimedia Filters
- ✓ Automatic Chemical Dosing systems
- ✓ RO Plants
- ✓ UV systems
- ✓ Ultrafiltration / Nanofiltration Membranes
- ✓ Cartridge/Bag/Self-cleaning Filters
- ✓ Booster Pump Units / Transfer Pump Units
- ✓ Pressurization Units
- ✓ Water Softeners

CLEANING AND DISINFECTION WATER TANK

Regular water tank cleaning can help reduce the risk of these contaminants entering the water supply, keeping you and your family safe from potential health risks and other water-borne diseases. We are committed to using advanced cleaning technologies and eco-friendly products to enhance the effectiveness of its services while minimising environmental impact. Through its consistent, high-quality service, we will gain strong reputation as a trusted provider of cleaning and restoration solutions.

COOLING TOWER

We provides an all-inclusive service, cleaning, repairs and maintenance of all types of cooling towers. In order to minimize the risk of Legionnaires disease and comply with the requirements of DM legionella control guideline it is important to clean and disinfect the towers regularly to remove fouling that can provide a ground for legionella bacteria. The process includes pre chlorination of the towers, a full physical clean and a post chlorination before it goes back on line. We also offer a chemical cleaning service for your towers which is a highly effective disinfection method which is ideal for in-situ disinfection and cleaning of cooling tower packing. A full report of all works is produced identifying areas requiring remedial action and where required a full detailed report showing the customer the condition of their equipment.

PRODUCTS

Pressure Vessels & Tanks
(RO pressure vessels, FRP media tanks)

Filtration System
(Cartridge filters, filter housings, Bag filters, self-cleaning filters, strainers)

RO & Ultrafiltration Membranes / Nano membranes.

Water Pumps & Pump Skid Packages
(Centrifugal, Submersible, Screw, Air operated, swimming pool)

Water Treatment Chemicals
(Scale and Corrosion Inhibitors, Pipe Cleaning chemicals, Antiscalants, RO membrane cleaners, biocides, polymers, generic chemicals)

Diffuser & Aeration System
(UV sterilizers, ozone generators)

Sand Media/ Activated Carbon/ Ion Exchange Resins/ Activated Filter Media

Disinfection Systems
(UV sterilizers, ozone generators)

Valves, Couplings & Fittings for RO & Water Treatment Plants

Bioactive Media
(MBBR media, Bio block media, Bio chip media, SAFF media)

Settling, Dewatering & Odour Control
(Tube settler media, dewatering bags, odour control system)

Instrumentation & Lab Equipment
(Measurement devices, testing kits, lab apparatus)
