Company Profile

SSH Technical Services is a construction firm and builder that specialized in private residential homebuilding to new erection, re-construction, design & build, addition & alteration and renovation activities.

Quality & Safety

SSH Technical Services provides highly rated electrical services for industrial and commercial properties. As a Reliable and trusted electric company, all of our workmanship is performed safely, accurately and by the highest industry standards.

Once each electrical repair or installation is completed, all that we leave behind is quality work! Each installation is done with the highest level of quality as a lasting reminder to each customer of the reliability of our team and the flawless final result.

We have more than 300 labors.

WHAT WE DO

Our Company has successfully completed a wide range of high quality structural steel projects. We are qualified to take on even the largest of projects in the international steel industry, for applications such as steel buildings, steel bridges, superstructures, and commercial, as well as residential projects.

Our adaptability, skill, and experience are proven by our past results. We are ideally suited to handle any project, worldwide. Utilizing the latest in cutting edge new millenium technology, we blend old orld experience with the newest in fabrication equipment and techniques.

Our completed projects stand as proof for the quality of our work; the fact that most of our clients retain enduring relationships with us is further proof that not only our work is excellent, but also that our concern for our clients is of paramount importance.

We not only offer quality of services but also at competitive prices.

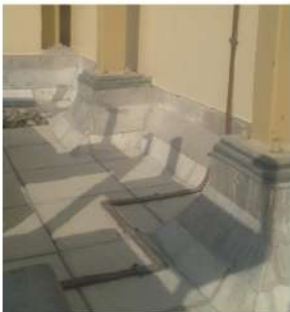

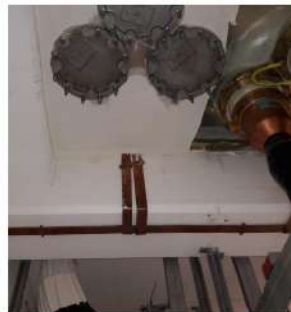

Moreover with a competent management and a highly skilled workforce, we possess much expertise in providing quality workmanship in marine engineering and shipyard operations.

Your projects are our projects, and we treat partners and clients as equals.
