Sanitech is a world class producer of acrylic bathtubs and shower trays since 1994. We also deal with jacuzzi systems, air systems, shower enclosures, bathtub screen and other bathtub accessories. We are certified with ISO 9001-2008 for our quality management. Our factory is in the industrial area zone 3 al juf alman.

Sanitech has built its reputation on a commitment to providing quality products and services. We are specialized in making customized models. Our products are available in different shapes and sizes.

Sanitech uses raw materials from its standard suppliers. Our quality control professionals maintain strict quality control on all components and parts. Our professionally trained workforce use hi-tech machinery and in house expertise manufacture products of international standards so naturally our products display high quality, diversity and durability.

We realize innovation is key to our progress. We always add new models and new sizes to our products list. Now we have large variety of models and sizes available.

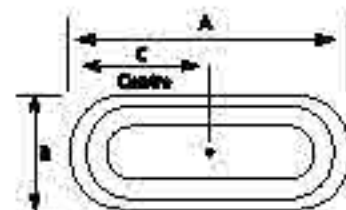

Our on time delivery and prompt after sale service is well known in the market. This is evident from our long list of satisfied customers and clients within and outside UAE.

FAUCET ADVANTAGE TECHNIQUE

Any chrome finish, Over a long period, such as 10 years.

As a guarantee, we provide a 10-year warranty on the chrome finish. This warranty is valid for all faucets made by our company.

Imported ceramic cartridge-smooth turn on and turn off.

The imported ceramic cartridge is made of high-quality ceramic material, which is hard and durable. It can withstand high pressure and high temperature, and it is not affected by water quality.

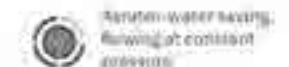

Quality Assurance: 100% superior copper.

As a guarantee, we provide a 10-year warranty on the copper body. This warranty is valid for all faucets made by our company.

More thickness body, making it strong enough.

The faucet body is made of high-quality brass material, which is strong and durable. It can withstand high pressure and high temperature, and it is not affected by water quality.

Superior water saving, flowing at constant pressure.

The faucet is equipped with a water-saving device, which can automatically stop the water flow when the faucet is not in use. This can save a lot of water and reduce the cost of water.

Food grade material, reliable seal.

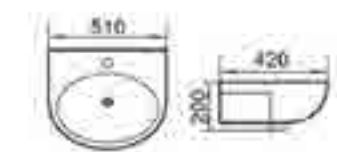

The faucet is made of food-grade material, which is safe and healthy. It is not affected by water quality and can be used for a long time.
