SURVEILLANCE SYSTEM

A video surveillance system / CCTV is composed of a system of cameras, monitors/display units, and recorders. Cameras may be either analog or digital with a host of possible design features which will be discussed momentarily.

These systems can be applied to both interior and exterior areas of a building or property.

- > Analog Cameras
- > IP/Digital Cameras
- > Internal / External Dome Cameras
- > PTZ Pan/Tilt/Zoom Cameras
- > Discreet Cameras
- > Bullet Cameras
- > Thermal Image / Infrared Cameras
- > ANPR/LPR Cameras
- > High-Definition Cameras

CCTV INSTALLATION

Enhance Your Security with CCTV Cameras

CCTV cameras are essential for boosting security in homes and offices, providing peace of mind and acting as a deterrent to potential intruders. With various wireless options, you can monitor your property remotely from any internet-enabled device.

Our Solutions

At Seven Bridge, we tailor security solutions to meet your specific needs. Our offerings include:

- > Indoor and Outdoor Cameras: For comprehensive coverage.
- > High Definition & Night Vision Cameras: Ensuring clear visibility day or night.
- > Bullet & PTZ Cameras: Perfect for various environments.
- > Mini Surveillance Cameras: Discreet options for sensitive areas.

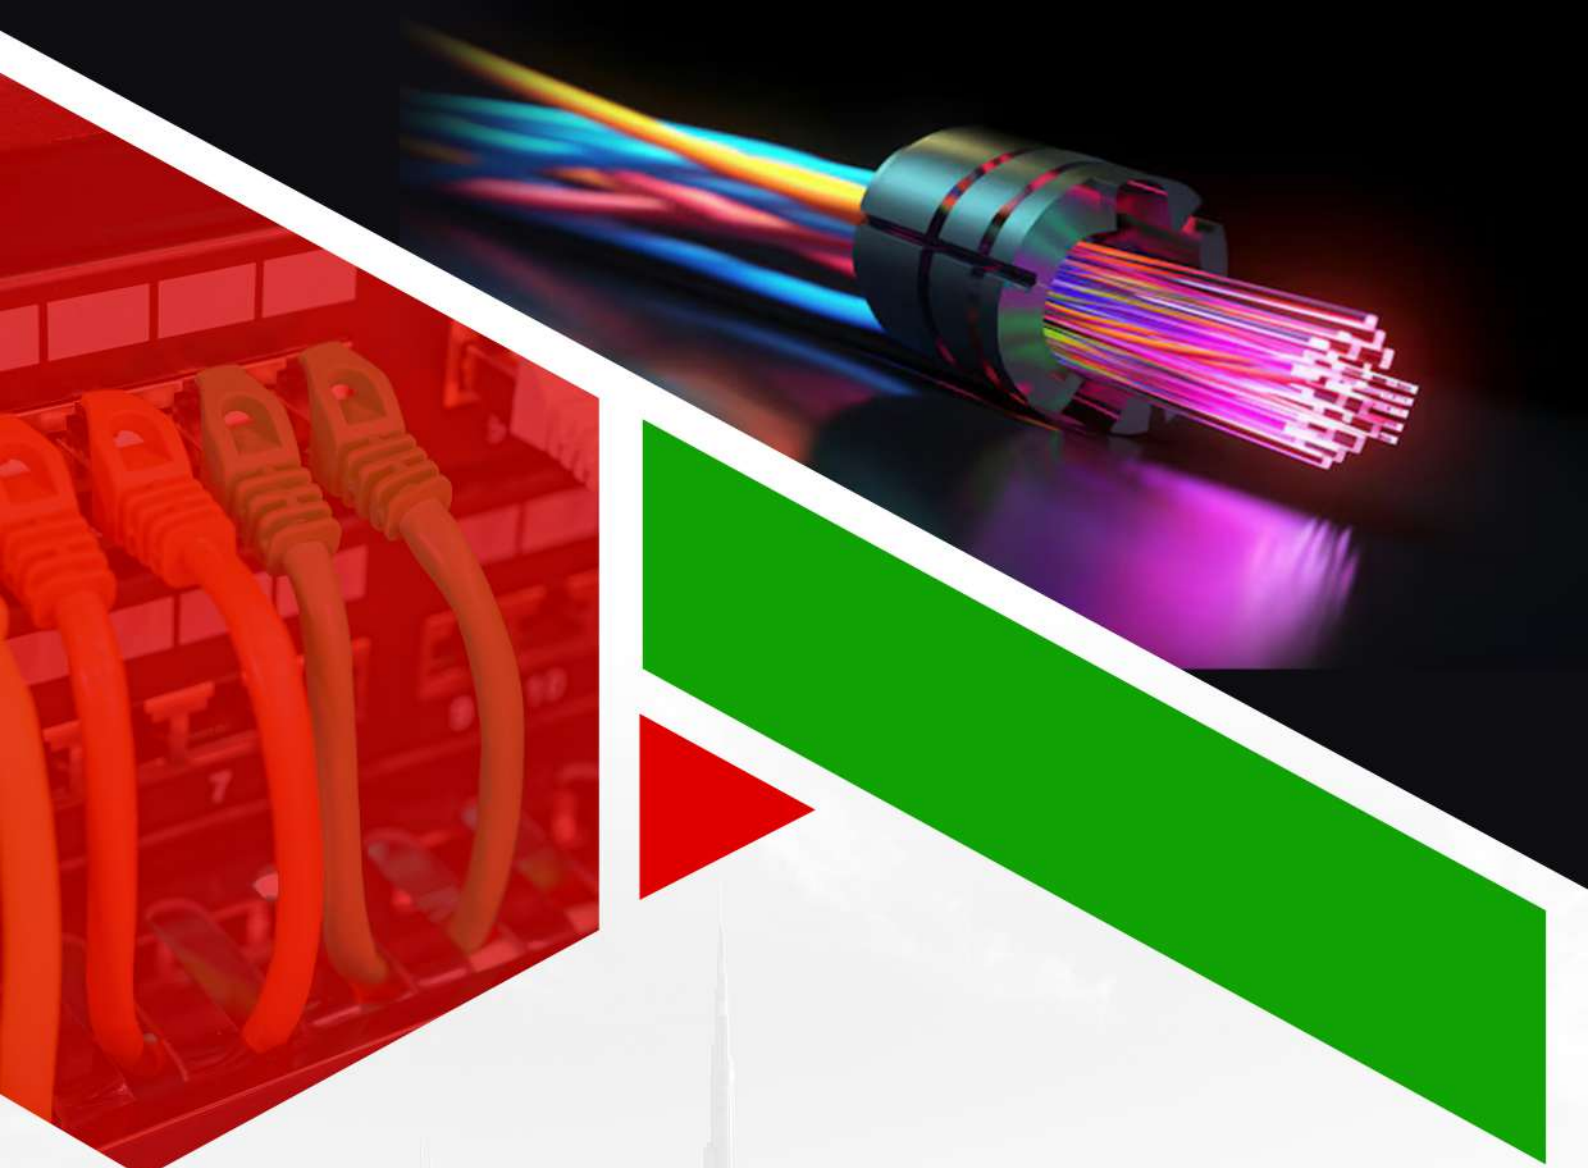

Professional Installation

Proper installation is key to maximizing the effectiveness of your CCTV system. Our expert team will ensure optimal camera placement and configuration.

Protect Against Security Breaches

Investing in a robust CCTV system helps safeguard against threats like identity theft and physical attacks, protecting your assets and reputation.
