Synertek

DEWATERING

LAND DRYING

SERVICE DESCRIPTION

Land drying & dewatering services are required to drain the excavated area that is flooded with ground water or rainwater. Sites where water sewer lines have to be laid, excavations and foundations has to be carried out, dewatering services become essential to ensure the work at these construction site progresses as per desired pace.

Water is removed from the construction sites using various methods either well point system, deep wells or open sump pumping methods.

WELL POINT DEWATERING

Well Point Dewatering Services are required to lowering the water table enabling dry excavations and ensuring the project progress is unhindered.

DEEPWELL SOLUTIONS

Synertek provides solutions for deep excavations using electrical submersible pumps installed in Boreholes.

FLOOD WATER MITOGATION

We provide flood water mitigation solutions, water transfer systems and water pumping solutions for various operations.

RENTAL SOLUTIONS

EQUIPMENT RENTAL

- CENTRIFUGAL PUMP
- OIL FLUSHING UNITS
- HIGH PRESSURE PRESSURISATION PUMPS
- PARTICLE COUNTERS
- HYDRO JETTING MACHINES
- NITROGEN PUMPS
- NITROGEN TANKS
- NITROGEN VAPORISERS
- AIR COMPRESSORS
- GENERATORS
- HYDROTESTING TEST CABINS
- OFFICE CONTAINERS
- DEWATERING PUMPS
- VACUUM PUMPS
- HOSE PACKAGES
- HYDROTEST MANIFOLDS

EXPERT MANPOWER

- HYDOTEST ENGINEERS
- SUPERVISORS
- TECHNICIANS
- WELDERS & FITTERS
- MILL WRIGHT TECHNICIANS
- PRE-COMMISSIONING ENGINEERS
- NITROGEN PUMP OPERATORS

PROCESS & PIPELINE

PIPELINE SERVICES

PIPELINE CLEANING, GAUGING AND FILLING

PIPELINE HYDROTESTING

PIPELINE DEWATERING

AIR DRYING AND VACUUM DRYING

NITROGEN PURGING AND PACKING

JET FUEL PIPELINE TESTING

PROCESS SERVICES

LUBE OIL FLUSHING

OIL POLISHING

VARNISH REMOVAL

CHEMICAL CLEANING

NITROGEN HELIUM LEAK TESTING

HIGH PRESSURE TESTING

HYDRO JETTING/AQUA MILLING

BOLTING & FLANGE MANAGEMENT

HIGH FLOW WATER FLUSHING – DISTRICT COOLING

NITROGEN PIURGING AND PACKING

BOROSCOPE INSPECTION
