ABOUT
TAJER LINKS & TRADE

Tajer Links & Trade is a dynamic building and construction materials trading company based in **Dubai Investment Park (DIP), UAE**. Established in **2021**, the company specializes in supplying high-quality construction materials, industrial products, and technical supplies to contractors, maintenance companies, and project developers.

Serving both **retail and wholesale markets**, Tajer Links & Trade provides a comprehensive range of products from globally recognized brands. With a strong focus on quality, reliability, and timely delivery, the company has quickly established itself as a dependable partner for construction and infrastructure projects across the UAE.

Backed by experienced professionals with over **20 years of combined industry experience**, Tajer Links & Trade understands the evolving needs of the construction sector and strives to deliver efficient product sourcing solutions for projects of all sizes.

VISION

To become a trusted leader in the building and construction materials trading industry, recognized for quality products, reliable supply, and exceptional customer service.

MISSION

Our mission is to be the preferred supplier of construction materials by consistently delivering reliable products, competitive pricing, and outstanding customer support while exceeding industry expectations.

OUR COMMITMENT

Tajer Links & Trade is driven by a strong commitment to quality, service, and industry expertise.

QUALITY PRODUCTS

We source our materials from trusted global manufacturers to ensure strict quality standards and long-lasting performance.

TIMELY DELIVERY

We understand the critical role of timelines in construction projects and ensure prompt product availability and delivery.

EXCEPTIONAL SERVICE

Our experienced team provides personalized assistance and expert product guidance to meet each customer's unique requirements.

INDUSTRY EXPERIENCE

With extensive industry knowledge and technical expertise, we help clients select the most suitable materials and solutions for their projects.
