

# COMPANY PROFILE 2025

# MISSION

To be the premier provider of equipment and related services for the foodservice and laundry industry. Our aim is not to beat the competitors' prices but to provide complete customer care. This starts with exceeding the customer's expectations and is maintained by continually doing so and establishing a close working relationship in the process.

TSSC

Company Profile

# PAST AND PRESENT

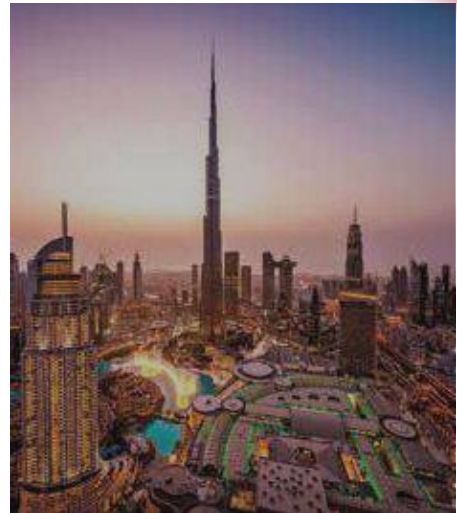

TSSC Kitchen & Laundry Equipment Trading LLC was established as Technical Supplies and Services Co. LLC in 1961 as a trading company dealing in refrigeration parts and accessories. In 1993, the company was acquired by Basil Bahar who envisaged a need for a quality service provider for food service and laundry equipment in the local hospitality and catering market. Using the enhanced resources at his disposal and his past experience, he decided to diversify and established a division with the sole purpose of providing industrial food service and laundry equipment solutions to developers and operators in 1994.

The burgeoning hospitality sector of Dubai fuelled by the growth of the Emirate as a regional trading epicentre and popular tourist destination along with our determination to provide the best services, provided the environment conducive to TSSC's rapid growth. In less than a decade, TSSC became the foremost provider of industrial kitchen and laundry solutions in Dubai.

Today, TSSC continues to provide complete customer care for the food service and laundry industry. TSSC can provide a one-stop solution for discerning clients, from the design of the facilities to the installation of the wide-ranging equipment required for the operation and training of the operators. Whether it is a single item or a complex facility involving numerous specialized areas with items, our solutions always include impeccable after-sales service and the enviable resources of the vast experience and dedication of our management and personnel.

Professionalism is instilled in our personnel at every level and is evident in every aspect of our work and in the results we have achieved. With a client base that is the who's who of the Dubai food service and hospitality industry, TSSC continues to be the forerunner in its competitive segment, striving to provide the best value for the client.

# DESIGN SERVICES

---

We can provide a complete kitchen and laundry technical design consultancy through our in-house CAD design department. Comprised of qualified and experienced personnel, we can provide quick generation and turnaround of drawings giving developers and operators the ability to make decisions quickly.

For large and complex foodservice and/or laundry facilities, we work closely with leading design and management consultants from the UAE and overseas. Our clients benefit from working with qualified industry professionals who have the experience required by developers, architects and catering professionals.

With our associates and suppliers, we create cost effective designs and proposals. We design and specify installations that reflect the maximum value for the client, in terms of cost, efficiency and practicality.

**TSSC**

Company Profile

# EQUIPMENT SPECIFICATION

---

We constantly monitor the market for the latest equipment, keeping abreast of the latest technologies and quality standards.

While we represent many manufacturers for various food service equipment, we can, maintain our independence when providing this service by offering alternatives to our own products if such is preferred by the client or the purpose. We are proud of the fact that the manufacturers represented by us are mostly market leaders in their respective segments and continue to share an equal and even higher commitment to quality in their products & services. All our products have impeccable performance records and are continually specified by many leading catering professionals from the world over.

Through our associate company TSSC (Sharjah), we are able to supply complete cold storage solutions to the hotel, catering and commercial markets.

# PROJECT MANAGEMENT

---

We have extended the planning, scheduling and controlling approach to include customer care at every step during and after the project life cycle.

We oversee the project from design to hand over and training for the operators personnel. By utilizing our in-house resources as well as those of our associate companies and specialised manufacturers/vendors, we ensure that the installation is completed on time, within budget, and to the client's satisfaction.

For large projects, we insist on a full time project manager being on site until hand over of the installation. From the installation of a few pieces of equipment to complex larger installations involving thousands of items for numerous speciality outlets, our project personnel bring a wealth of experience and skills honed by their years in the field to ensure timely and efficient execution of the project.

# QUALITY COMMITMENT

---

At TSSC, our commitment to quality is second to none. The majority of our product line is ISO 9000-approved and the manufacturers follow the highest international quality standards certified by the relevant regulatory authorities in their respective regions/ countries. We ensure that the quality of the equipment and installation matches the quality of the location and the expectation of the customer.

We have retained an independent quality management consultant to implement a continuous quality system into all our operations.

Our engineers and technicians have undergone training at our key supplier's facilities so as to ensure they meet their quality requirements as well.

# INSTALLATION AND MAINTENANCE

---

Our installation and maintenance personnel are trained in and familiar with not just our own product range, but also with a wide variety of Food Service, Cold Storage and Laundry equipment is employed in the market through other vendors.

Our engineers and technicians have undergone training at our key suppliers' facilities to ensure that the installation is right the first time. We maintain a sizeable in-house inventory of spare parts to minimise any down time of our installed equipment.

We guarantee all our installations for one year, and all equipment is also backed by the respective manufacturers' warranties for the same period. A 24-hour emergency callout service on all days is also available by calling 800-24-TSSC (8772) along with extended warranty and equipment maintenance services.

Our spare parts division works independently from other division to ensure availability of spare parts for all your foodservice and laundry equipment needs.
