U L T R A STAR BUILDING MATERIALS TRADING LLC

U L T R A STAR BUILDING MATERIALS TRADING LLC

Is A Leading Provider Of High-quality Electrical Solutions, Specializing In A Comprehensive Range Of Products Tailored To Meet The Diverse Needs Of Residential, Commercial, And Industrial Clients. Our Commitment To Excellence And Innovation Drives Us To Deliver The Best In Cables, Lighting Solutions, Switches And Accessories, And More.

Product Range:

We offer an extensive selection of electrical fittings, including:

- Cables: High-performance cables designed for durability and efficiency.
- Lighting Solutions: Innovative lighting options that enhance aesthetics and functionality.
- Switches and Accessories: A wide variety of switches to suit every application.
- Cable Management Systems: Efficient solutions to organize and protect cables.
- Cable Terminations: Reliable and secure terminations for safe connections.
- Switchgear Products: Advanced switchgear for optimal power management.
- PVC Conduits and Trunkings: Durable and flexible conduits for effective cable protection.
- Earthing and Lightning Protection: Essential systems to safeguard structures from electrical surges.
- Fans: Energy-efficient fans for improved airflow and comfort.
- Floor Boxes and Sockets: Convenient access points for power and data.
- Industrial Plugs and Sockets: Robust connectors designed for industrial environments.

Contact Us:

For More Information About Our Products And Services, Or To Discuss Your Specific Requirements, Please Reach Out To Us. Let Star Plus Electrical Be Your Trusted Partner In Electrical Solutions.

CABLES

We Specialize In A Comprehensive Range Of High-quality Electrical Cables Tailored To Meet Diverse Industrial And Commercial Needs

- Single Core And Armoured Cables
- Rubber Cables
- Control Cables
- Panel Wires
- Pvc Flexible Cables
- Fire Rated And Emergency Cables
- Cat6 Cables

CABLE MANAGEMENT SYSTEMS

We Understand The Critical Role That Effective Cable Management Plays In Ensuring Safety, Organization And Efficiency In Any Electrical Installation

- GI Conduits and Accessories
- GI/PVC Coated flexible Conduits
- GI and Hot Dip Galvanized Cable Trays and Accessories
- GI and HDG Slotted Channels
- Supports and Post Bases
- Related Hardware Items

CABLE TERMINATIONS

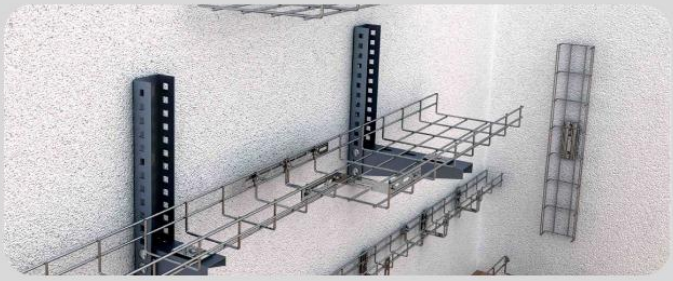

We Provide A Comprehensive Selection Of Cable Termination Solutions Designed To Ensure Reliable Connections And Optimal Performance In Various Applications.

- Brass Cable Glands
- Tinned Copper Lugs And Ferrules
- Insulated Lugs
- Pvc Glands
- Waterproof Ip68 Connectors
- Cable Joint Kits
- Cable Cleats
- Heat Shrink Sleeves
- Nylon Cable Ties

WIRE MESH CABLE TRAY SYSTEMS

The mesh cable tray is available in three different surface versions. It is hot-dip galvanised and can be used in the industrial sector and in machine and system construction. In the stainless steel version, it is particularly suited to the foodstuffs and chemicals industries or, with electrogalvanisation, it is suitable for interior areas without special requirements.

STRUT CHANNEL & ACCESSORIES

Strut channel is a very versatile component of a support system designed for application in construction, electrical and HVAC industries. Strut channel is frequently used to support, suspend and mount metal structures, it's a crucial part of metal framing system that doesn't need welding, drilling or specialised tools.

METAL CABLE TRUNKING SYSTEMS

Cable trunking, specifically the Galvanized 50mm x 50mm variant, stands as a crucial infrastructure component in modern electrical systems, ensuring efficient cable management and safety in various settings. Crafted with precision, this galvanized cable trunking offers a durable and reliable solution for concealing and protecting electrical wires and cables in commercial, industrial, and residential environments.

CABLE LADDER MANAGMENT SYSTEM

Cable ladder system allows safe transport of wires across open spans and gives protection against the overheating and also used to manage a large radius of electrical cables used for power distribution. Cable ladder has two side rails connected by cross members or rungs. ICMS has several types of cable ladder with different rungs such as Tubular, C-profile, Rivet type. The rungs provide convenient anchors for tying down the cables.
