SAP Services

SAP® Certified Integration Partner — NetWeaver, S/4HANA & Cloud

CORE SAP CAPABILITIES

01

GRC Implementation

Full SAP GRC suite — Access Control, Process Control and Risk Management. Audit-ready dashboards, SoD conflict resolution, and emergency access governance.

02

SAP S/4HANA & Cloud

Greenfield and brownfield S/4HANA migrations. Cloud deployments on SAP BTP, AWS and Azure with zero-downtime cutovers and full hypercare.

03

24/7 Managed Support

SLA-backed production support across all SAP modules. Proactive monitoring, root-cause analysis, and on-demand consultants to resolve incidents fast.

04

SAP Consulting & Resources

Embedded on-demand SAP consultants for implementations, rollouts, and resource gaps. Available globally across all time zones and SAP module areas.

VISION

“To establish ourselves as the hub for all SAP related activities, and to offer highly effective SAP solutions — partnering with clients to facilitate their journey through SAP.”

AI Factory & Products

Enterprise Automation for £10M+ Businesses

AI FACTORY — CUSTOM AUTOMATION HUB

AI FACTORY CAPABILITIES

Lead Capture & Qualification

Auto-qualify leads from web, ads, and social. No cold leads — only warm prospects.

24/7 AI Customer Agents

Trained AI agents on WhatsApp, website chat, and email — always on duty.

Proposal & Quote Generation

Auto-generate branded proposals with e-signature and Stripe payment links.

Staff Alerts & Task Assignment

Instantly alert teams in Slack, Trello or Asana when leads qualify or pay.

Invoicing & Payment Automation

Send, collect, and reconcile invoices — zero manual spreadsheets needed.

Live Analytics & Reporting

Unified KPI dashboards pulling from all your tools. Know what's working.

FLAGSHIP PRODUCT — AUTO ROLE MANAGEMENT (ARM)

Auto Role Management (ARM)

Xplor Group's flagship SAP product — automating user provisioning, role assignment, and access governance across your entire SAP landscape. Eliminate manual role requests, reduce audit risk, and enforce least-privilege access at enterprise scale.

- Emergency access management
- Access risk analysis & SoD conflict prevention
- Audit-ready reporting
- Automated role provisioning

Why Xplor Group

30 Years of Expertise. One Trusted Partner. Four Global Offices.

OUR 3-STEP PROCESS

01

Initial Discovery Call

Deep-dive into your business model, goals, and pain points. We audit your tools, identify automation opportunities, and set strategic direction.

02

Proposal & Strategy

A custom plan crafted to your objectives — transparent pricing, clear timelines, and collaborative refinement before any work begins.

03

Deploy & Optimise

Our team implements, tests, and goes live. Regular progress reports and ongoing optimisation ensure maximum, measurable impact.

CLIENT TESTIMONIALS

“

“Xplor AI made it simple. They built a completely custom system, showed us how to use it, and gave us the option to self-host. Automation without complexity.”

Cire Sy

CEO, Conqor VIP Experiences

“

“Our AI Factory qualified 150+ leads in the first month — without a single team member involved. Like having a full-time sales team running in the background.”

Mark O'Leary

COO, Optimum Aim

“

“We used to juggle 5 different tools for onboarding. Now it's one automated system. Our onboarding time dropped from 2 days to 20 minutes.”

Katie Symmons

Founder, Athena Accountancy
